

If I interpret the do-not-call registry rules for telemarketers correctly, they can get your number within 24 hours of you registering it. They then have 90 days to solicit your business before the do-not-call restrictions go in place. How is this good for consumers? I registered as not to get calls, now you have provided an accurate telemarketing list. This is WRONG. Why do I have to receive ANY telemarketing calls. I pay for my phone, I don't want telemarketing calls. NONE OF THEM!!!! I should have the right to not allow any calls I don't want. CONSUMERS CLEARLY DONT WANT THE CALLS IF THEY SIGN UP ON THE LIST!!!! I have received more calls since I signed up than before. THIS IS AN OUTRAGE!!! No wonder more and more people are cancelling their home phones and just using cell phones. Telemarketers can't call cell phones. The ILEC and RBOC Telephone Companies should sue the FCC and the FTC for damages from lost revenue from people cancelling their services.
